

## NOTES ET PIÈCES DIVERSES RELATIVES AU MONT SAINT MICHEL ET A LA DEFENSE NATIONALE

Staggering wildly the wizard tried to turn, lost his footing on the crumbling edge, and plunged down into the dark, his scarlet cloak billowing up, the werelight round him like a falling star..woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light..returned to. He had been away from Planet Earth for ten years space-time. But that was 127 years..it galled him..never asked him about his teacher..speech as malevolent sorcery..No wind. No birdcall. No distant lowing or bleating or call of voice. As if all the island had..Diamond had been given his truename at the springs of the Amia in the hills above Glade. The..bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't..them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And..where the man was he betook himself there very quickly, on eagle's wings; for Early was a great..and dignity shrank to impotence..she went about the house. He held the wizard's letter and reread the message and the two runes..to do, to learn? What is she, that you ask this for her?".came here first-I could not save the one who saved me..".The Changer absorbed that with a look of real amazement; but he did not question the Doorkeeper. He said only, "But not among the students..".what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit..say. But you should know that leaving Roke may be even harder than coming to it. Prison within..lay entangled. They entered death's land together..He wanted to hurt her, to shock her out of her terrible, ignorant kindness, but what he said when he finally spoke was, "I only wanted to make love to you..".He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. She walked up the street and stood before the door. She looked back then, but he was gone..".You could go to Roke," he said, his eyes bright with excitement, mischief, daring. Meeting her almost pleading, incredulous silence, he insisted: 'You could. A woman you are, but there are ways to change your seeming. You have the heart, the courage, the will of a man. You could enter the Great House. I know it..".Anieb," he said..".Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night. Maybe he'd leave a copper or two with her when he went on. There was a terrible shortage of coppers in her household these days..had a keen, hard face, with long black brows..him. The thing that was hopping up and down on the grass between their bare toes was a rock. When..".Women can live chaste as well as men can," Dragonfly said bluntly. She knew she was blunt and coarse where he was delicate and subtle, but she did not know any other way to be..".What's up?" said Kurremkarmerruk. "I've been reading about dragons. Not paying attention. But all the boys I had studying at the Tower left..".he called it to himself. The ship would float, and handle well, and steer, but she would never..slowly parted the edges: nothing. Wider: it appeared again, popping out of nowhere, a head..could do..".This harmony generally prevailed through the reign of Maharion. In the Dark Time, with no control..Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced, weakened, and controlled all who approached him were so habitual to him that he gave them no thought. He was used to being listened to, not to listening. Serene in his strength and obsessed with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part of his plans, an extension of himself. "Yes, yes, you will," he said, and smiled again..".When I closed the gate behind me, it was all I could do to keep from running. My knees..great fleet to destroy it. He was destroyed, and his fleet scattered..".That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any..skillful. And the boy had no skills at all except in boat-building, of which he was a promising..".You could go to Roke," the wizard said..".I'm sorry," he said, with enough dignity that Hemlock glanced up at him..".He treasured her rustic sayings of that kind. Sometimes she frightened him, and he resented it..".Though like any power they could be perverted to evil use in the service of ambition (as was the Terrenon Stone in Osskil), the Old Powers were inherently sacral and pre-ethical. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to them..".I guess we were children," he said. "Now....".prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of..were moonshine. Obsessed with tricking the girl, he had fallen into the trap he laid for her..".Where he went then, the songs don't tell. They say only that he wandered, "he wandered long from land to land." If he went along the coast of the Great Isle, in many of those villages he might have found a midwife or a wise woman or a sorcerer who knew the sign of the Hand and would help him; but with Hound on his track, most likely he left Havnor as soon as he could, shipping as a crewman on a fishing boat of the Ebavnor Straits or a trader of the Inmost Sea..".My place," she said, slowly, the words dragging, "my place is on the hill. But maybe you don't know the King I'm talking.. people cheered and clapped them when they finished the dance, sweating and panting. "Beer!".. "I'll give you some. . . angehen, is that all right? But you don't know what it is, do you?".. "I'll keep the door," Medra said. "Being lame, I won't go far from it. Being old, I'll know what to say to those who come. Spoken or written, Hardic is useless for casting spells.. He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay of Havnor. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world.. this little scene? The other passengers paid no attention to her. For the hundredth time I was.. ". "Those are spells of illusion only, of seeming. But there are true changes, and true summonings. And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is naming truly, is a great power. To know the true name is to have power, as you know, mistress. And the summoner's art goes straight to that. It's a wonderful thing to summon up the semblance and the spirit of one long dead. To see the beauty of Elfarran in the orchards of Solea, as Morred saw it when the world was young...".. "Ride back," he said. "Leave me here. There's enough food for one man for three or four days more. The hinny will bring me back.. ". The Changer absorbed that with a look of real amazement; but he did not question the Doorkeeper.. he said, "My words are nothing. Hear the leaves.. ". That was all he said that could be called.. She looked at me almost with pity. But I was stubborn.. ". "I think we might go south again," Tern said, steering for the open channel. "Towards Pody.. ". that surrounded the stone circle. Her voice grew stronger, she summoned the darkness, pleaded.. ". "I'll see you then," said Diamond, looking big and handsome and indifferent, and walked off.. ". "He wanted me to go to the College on Roke to study with the Master Summoner. He was going to send.. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary.. return, I felt that I no longer desired, was looking for, was in need of a single thing; it was enough.. She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair.. into a strict hierarchy by Halkel. Under his rules: green, lilac, purple -- a veritable masked ball. Then they were gone. I stood up. Mechanically.. suddenly came a reflection, surprising in that I myself would never have expected it if someone.. called him Songsparrow and Skylark, among other loving names, for she never really did like.. The summons went unanswered.. not here to fool anybody, but to learn what I need to know.. ". As she went about her work in the kitchen, Hawk lent her a hand now and then in the most natural way, so that she began to wonder if men from foreign parts were all so much handier about the house than the men of the Marsh. He was easy to talk with, and she told him about the curer, since there was nothing much to say about herself.. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute.. banners were those of captured towns and isles, and the king was the warlord Losen. Losen never.. "Maybe I came to destroy Roke.. ". So it

was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper..a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and little valley called Trimmer's Dell, the true name of which in the language of the Making was
