

COMO DESCUBRIR SUS VIDAS PASADAS

He said, "There's a whiteness in Barty's right pupil ... which I think indicates a growth. The distortions in his vision are still there, though somewhat different, when he closes his right eye, so that indicates a problem in the left, as well, even though I'm not able to see anything there. Dr. Chan has a full schedule tomorrow, but as a favor to me, he's going to see you before his usual office hours, first thing in the morning. You'll have to start out early." If the wife killer had cut himself accidentally, his writing on the wall indicated a hair-trigger temper and a deep reservoir of long-nurtured anger. The apartment had been furnished with only two padded folding chairs and a bare mattress in the living room. The mattress was on the floor, without benefit of a bed frame or box springs. Such behavior as hers was unlikely to lead to self-discovery, self improvement, and fulfillment. We make our own misery in this life. For better or worse, we create our own futures. Agnes's faith told her that the world was infinitely complex and full of mystery, and in a peculiar way, Barty's talk of infinite possibilities supported her belief and gave her the comfort to sleep. Monday morning, New Year's Day, Agnes carried two suitcases out of the back door, set them on the porch, and blinked in surprise at the sight of Edom's yellow-and-white Ford Country Squire parked in the driveway, in front of the garage. He and Jacob were loading their suitcases into the car. Sunday morning, when Agnes returned from church, Edom and Jacob joined her for lunch. During the afternoon, Jacob helped her bake seven pies for Monday delivery. "Getting her into her shoes and coat sooner than Monday required a bribe," Wally said. A smoldering cigarette, usually dangling aslant from one corner of a hard mouth set in a cynical sneer, was standard issue for tough-guy gumshoes, but Nolly didn't smoke. His failure to develop this bad habit resulted in a less satisfyingly murky atmosphere than the clients of a private dick might expect. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?" The shakes returned, became more violent than previously--and then once more passed. Commodified fantasy takes no risks: it invents nothing, but imitates and trivializes. It proceeds by depriving the old stories of their intellectual and ethical complexity, turning their action to violence, their actors to dolls, and their truth-telling to sentimental platitude. Heroes brandish their swords, lasers, wands, as mechanically as combine harvesters, reaping profits. Profoundly disturbing moral choices are sanitized, made cute, made safe. The passionately conceived ideas of the great story-tellers are copied, stereotyped, reduced to toys, molded in bright-colored plastic, advertised, sold, broken, junked, replaceable, interchangeable. Something was very wrong with her, and she tried to speak, but again her voice failed her. At nearly forty years of age, Edom still dreamed of that grim summer afternoon, although not as often as in the past. When it troubled his sleep these days, it was a nightmare that gradually metamorphosed into a dream of tenderness and hope. Until the last few years, he'd always awakened when the roses were being jammed into his mouth or when the thorns flicked through his eyelashes, or when Agnes began to strike their father with the Bible, thus seeming to assure worse punishment. This additional act, this transition from horror to hope before he woke, had been added when Agnes was pregnant with Barty. Edom didn't know why this should be so, and he didn't try to analyze it. He was simply grateful for the change, because he woke now in a state of peace, never with worse than a shudder, no longer with a hoarse cry of anguish. Such quiet filled the house that Agnes couldn't hear even the murmuring miseries of the past. The rocking chair stopped squeaking under her. She heard the sincerity in Vinnie's voice, and as her disbelief dissolved, she was shocked into immobility. She whispered, "My little superstition." "Is it as bad as that?" Celestina wondered plaintively, though she knew the answer. "I love San Francisco. The city inspires my work. I've built a life here. Is it really as bad as that?" Escorting her home didn't require either a car or a long walk, because she lived upstairs in the hotel where he'd had dinner. The top three floors of the building featured enormous owner-occupied apartments. The decision had already been made that Grace would move in with Celestina and then following the wedding with Celestina and Wally. In Spruce Hills, she had dear friends whom she would miss, but there was nothing else in Oregon to draw her back, other than the narrow plot beside Harrison, where she expected eventually to be buried. The parsonage fire had destroyed all her personal effects and every family treasure from Celestina's grade-school spelling-bee medals to the last precious photograph. She wanted only to be close to her one remaining daughter and her granddaughter, to be part of the new life that they would build with Wally Lipscomb. Entering the bedroom, Junior had expected to cast aside his pistol and draw a knife. But he was no longer in a mood for close-up work. Fortunately, he'd managed to hold on to the gun. In time, his hand tightened feebly on hers. And a while after that hopeful sign, his eyelids fluttered, opened. Refusing to give the cop the satisfaction of a reply to the news of the unborn baby's paternity, Junior stared unwaveringly into the grave and said, "Whose funeral were you attending?" As spectacularly busty as the not-yet-dead Jayne Mansfield, Frieda never wore a bra. In 1966, this free-swinging style was little seen. Initially, Junior didn't realize bralessness was a declaration of Frieda's liberation; he thought it meant she was a slut. Holding fast to the boy's right foot, Jacob observed that one elevator might descend safely but that if they took two, one or the other was certain to crash to the bottom of the shaft, considering the unreliability of all machinery made by man. The afternoon was winding down, and the lowering sky seemed to be drawn steadily toward the earth by threads of gray light that reeled westward, ever faster, over the horizon's spool. The air smelled like rain waiting to happen. Inking? The sequined and tasseled hat of fame was too gaudy for her; she was a minister's daughter, from Spruce Hills, Oregon, more comfortable in a baseball cap. In the closet, a limited wardrobe did not fully occupy available rod space. On the floor, shoes were neatly arranged toe-to-heel. Requests for permission to make copies of any part of the work should be mailed to

the following address: Usually, he remained still, tense, listening, until enough silence convinced him that the sounds he'd heard had been in the dream, not in the real world. If silence didn't settle him, he went into the living room, only to discover that she was always where he had left her, fork-and-fan-blade face wrenched in a soundless scream. In her arms, little Barty burbled contentedly, unaware that his destiny supposedly included epic love, fabulous riches, and violence. Her voice as bright as her bed ensemble, spiritual sister to baby chicks everywhere, yellow Angel raised her head from the pillow and said, "Will you have a wedding?" The presence of the brochure disturbed Vanadium also because he assumed that after being dead-ended by Nolly, Cain had subsequently discovered that Celestina had taken custody of the baby to raise it as her own. For some reason, the nine-toed wonder originally believed the child was a boy, but if he'd tracked down Celestina, he now knew the truth. The guy appeared vulnerable, his arms occupied with the kid and the bag, and Junior considered bursting out of the Mercedes, striding straight to the Celestina-humping son of a bitch, and shooting him point-blank in the face. Brain-shot, he would drop quicker than if the headless horseman had gotten him with an ax, and the kid would go down with him, and Junior would shoot the bastard boy next, shoot him in the head three times, four times just to be sure. An outrageously sexy redhead hit on him as he selected from an array of bomb-shaped canapes on a tray held by a waiter dressed as a ragged and soot-smearred blast survivor. Myrtle, the redhead, preferred to be called Scamp, which Junior entirely understood. She wore a DayGlo green miniskirt, a spray-on white sweater, and a green beret. Following a month of recuperation and postoperative medical care, Junior was able to return to his twice-a-week classes in art appreciation. He resumed, as well, his almost daily strolls through the city's better galleries and fine museums. The toast now came to Celestina. "To Phimie, who will be with me in memory every hour of every day for the rest of my life, until she is with me again for real. And to ... to this most momentous day." "It's an uncommon reaction," the physician acknowledged, "but not so uncommon as to be rare." To the growing pile of ruin, she added one of Joey's cardigan sweaters, after popping loose one bone button and almost completely detaching a sewn-on patch pocket. A pair of knockabout khaki pants: quickly clip open the seat seam; cut the corner of the wallet pocket, then rip it with both hands; snip loose some stitching and half detach the cuff on the left leg. Judging by the evidence, the nurse was home alone, but Junior raised his voice above the music and called out, "Hello? Is anyone here?" In the glamorous cocktail lounge of this elegant hotel, Junior was necessarily forced to use other of Zedd's techniques--and more brandy--to liberate from his subconscious the name of the caller on the Ansaphone. Max. The caller had said, It's Max. Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage. On one wall hung an impressive array of gardening tools. In the corner was a potting bench. While you're trying to decide, hand me a knife, and I'll cut your jugular you brainless medical-school dropout. When the attorney finally came on the line, he sounded put-upon, as though Junior were the equivalent of a troublesome toe that he would like to shoot off. The parsonage was a clean, respectable, and even charming house, but nothing about it might be called grand. No sweeping staircase offered a glamorous showcase adequate for Scarlett O'Hara. Instead, the stairs were enclosed, accessed by a door in one corner of the living room. Through nine months of quiet panic, however, Phimie grew less rational week by week, resorting to reckless measures that endangered. Tumbled on the grass, in fragments: the broken trophy for the prize rose, the symbol of his sinful. Neddy talked when Celestina paused for breath, talked over her when she didn't pause, heard only his own mellifluous voice and was pleased to conduct both sides of the conversation, wearing her down as surely as though far more rapidly than the sand-filled winds of Egypt diminished the pharaohs' pyramids. He talked through the first polite "Excuse me" of the tall man who stepped into the open doorway behind him, through the second and third, and then with an abruptness that was as miraculous as any cure at the shrine of Lourdes, he fell silent when the visitor put a hand on his shoulder, eased him gently aside, and entered the apartment. When Renee, sweetly oblivious of her looming doom, claimed to have inherited a sizable industrial-valve fortune, Junior thought she might be inventing the wealth or at least exaggerating to make herself more desirable. But when he accompanied her back to her place, he discovered a level of luxury that proved she wasn't a shop girl with fantasies. Turning away from the window, Tom met her gaze. His smoke-gray eyes looked frosted, as though the fog ghosts had passed through the window and possessed him. But then the flame on the table candle flared in a draft; lambent light melted the chill from his eyes, and she saw again the warmth and the beautiful sorrow that had impressed her before. You have the teeth to do it, Junior thought, but he restrained himself from saying it. "This can't be a dead end." His Country Squire laden with cookies, plum cakes, homemade caramel corn with almonds, and gifts, Edom drove directly home from Obadiah Sepharad's place, which had been their final stop. He roared away as if trying to outrun tornadoes and tidal waves. He still had work to do here. Properly disposing of Thomas Vanadium, however, was the most urgent piece of business. Fifteen feet separated them, with guests intervening. Yet this stranger's attention could have felt no more disturbingly intense to Junior if they had been alone in the room and but a foot apart. Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile. Cain's Spruce Hills home, which he'd shared with Naomi, hadn't been furnished anything like this. The difference between there and here--and the similarity to Vanadium's digs--could be explained neither by wealth alone nor by a change of taste arising from the experience of city life. A SEVERE THIRST INDICATED to Agnes that she wasn't dead. There would be no thirst in paradise. This was one of many things about Agnes that amazed Edom. If he had dared to make a list of all the qualities that

he admired in her, he would have sunk into despair at the consideration of how much better she had coped with adversity than either he or Jacob. "It sure is," Barty said. When only a mortified silence followed his remark, he added: "Gee, I thought that was kinda funny." As if he'd been presented with many previous photos under these circumstances, Jonas Salk accepted the picture. "Your daughter?" He didn't want to lean inside and peer over the front seat. He had no weapon. He would be unbalanced, vulnerable. He wasn't entirely sure what all he hoped to find. Perhaps an envelope or a cash box with folding money, which a fleeing murderer would surely pause to take with him. Suspicions might be raised if he left it behind. Perhaps a savings-account passbook. Looking down at Barty, Agnes saw the ghost of Joey in the baby's face, and although she half believed that her husband would be alive now if he had never tempted fate by putting such a high price on his life, she couldn't find any anger in her heart for him. She must accept this final generosity with grace-if also without enthusiasm. After mentally reviewing what he must say, after working up a nervous edge, he dialed the SFPD emergency number. Over generous slices of Black Forest cake and coffee, Jacob at first held forth on the explosion of a French freighter, carrying a cargo of ammonium nitrate, at a pier in Texas City, Texas, back in 1947. Five hundred and seventy-six had perished. For a driver who had just engaged in a demolition derby with a house, the mummified man was steady on his feet and unhesitant in his actions. He turned to Harrison White and shot him twice in the chest. "Most tornadoes stay on the ground twenty miles or less," Edom explained, "but this one kept its funnel to the earth for two hundred nineteen miles! And it was one mile wide. Everything in its path--torn, smashed to bits. Houses, factories, churches, schools--all pulverized. Murphysboro, Illinois, was wiped off the map, erased, hundreds killed in that one town." Back in January, when he received the disappointing report from Nolly Wulfstan, Junior was not convinced that the private detective had exercised due diligence in his investigation. He suspected that Wulfstan's ugliness was matched by his laziness. When she tried to say bow, the how of speech eluded her, and she sat as mute as if no words had ever passed her lips before. With the earth still tenuously stable beneath them, they arrived at their fifth destination, a new address on Agnes's mercy list. "Wait," said Deed, holding out one hand either beseechingly or to block the door. Taking her mother's advice to heart, Celestina sighed. "All right. Let's just pray they catch him. But if they don't ... two weeks, and then the rest of the plan, the way you said, Tom. Except that I can't tolerate two weeks--in a hotel, cooped up, afraid to go into the streets, no sun, no fresh air." Junior poured half the vodka over the corpse, splashed some around other parts of the kitchen, and spilled the last on the cook top, where it trickled toward the active burner. This was not an ideal accelerant, not as effective as gasoline, but by the time he threw the bottle aside, the spirits found the flame. Eleven years later, a few months after marrying Agnes, Joey mysteriously invited Edom to accompany him on "a little drive," and took his bewildered brother-in-law to a nursery. They returned home with fifty pound bags of special mulch, jars of plant food, and an array of new tools. Together, they stripped the sod from the side yard, turned the soil, and prepared the ground for the rich variety of hybrid starter plants that were delivered the following week. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in either place the way our parents or ancestors did. Enchantment alters with age, and with the age. Prosser--fifty-six, a widower, an accountant--had a thirty-year-old daughter, Zelda, who was an attorney in San Francisco. Junior had driven to Terra Linda previously, to research the accountant; he already knew Prosser had no connection to Seraphim's fateful child. The old man assumed the solemn and knowing expression of one guarding mysteries, a sphinx without headdress and mane. "If I told you, dear lady, it wouldn't be magic anymore. Merely a trick." guarantee against self-incrimination, a slap in the face of justice, a violation of the rights of man. A deep-set casement window. Two latches on the right side, one high, one low. Detachable hand crank lying on the foot-deep sill. Mechanism socket in the base casing. The various flavors of canned soda were always racked in the same order, allowing Barty to select what he wanted without error. He got orange for Angel, root beer for himself, and closed the refrigerator. The middle finger on his right hand throbbed under the pair of Band-Aids. He'd sliced it earlier, while using the electric sharpener to prepare his knives, and the wound had been aggravated when he'd had to strangle Neddy Gnathic. He would never have cut himself in the first place if there had been no need to be well-armed and ready for Bartholomew and his guardians. Testing Celestina's nerves as fully as Barty had tested his mother's, Angel pulled-levered -shinnied-swung herself so fast up through the tree, arriving at the boy's side while red streaks still enlivened a sky that was repainting itself purple. She stood in the crook of limbs with him, and her delighted laughter rang down through the cathedral oak. 1975 through 1978: Hare ran from Dragon, Snake fled from Horse, and '78 bounced to the beat, because disco ruled. The reborn Bee Gees dominated the airwaves. John Travolta had the look. Rhodesian rebels, grasping the dangers inherent in any battle between equals, had the manful courage to slaughter unarmed women missionaries and schoolgirls. Spinks won the title from Ali, and Ali won it back from Spinks. The detective shrugged. "The girl might've had her baby at a third rate hospital, one with poor control of patients' records and a less professional staff. Or the kid might have been placed for adoption through some baby brokerage in it strictly for the money. Then there would've been opportunities to learn something. But as soon as I discovered it was St. Mary's, I knew we were screwed." "From time to time now, you're going to be written about," Helen warned. "Be prepared for a peevish critic or two, furious about your optimism." She fussed over him, took his temperature, and spooned two chips of ice into his parched mouth. Leaving, she gave Celestina a meaningful look and tapped her wristwatch. Later, weak and shaken, as he was packing his suitcase, the urge overcame him again. He was astonished to discover that anything could be left in his intestinal tract. Clearly, she had learned nothing from her reading. No sincere and thoughtful student of Zedd would be as sorely lacking in self-control as Frieda Bliss. Those who had just met her and those who were overly charmed by eccentricity called her Seraphim, her name complete. Her teachers, neighbors, and casual acquaintances called her Sera. Those who knew her best and loved her the most deeply--like her sister, Celestina

called her Phimie..He turned over the two most recent discards. Neither was a jack of spades, and both were what he expected them to be..Tom caused less of a stir in the restaurant than Kathleen had expected. Other diners noticed him, of course, but after one or two looks of shock or pity, they appeared indifferent, though this was undoubtedly the thinnest pretense of indifference. The same quality in him that elicited deferential regard from the waiter apparently ensured that others would be courteous enough to respect his privacy.. "No. Rowena dropped those names after the twins' first year. She and I were the only ones who ever used them. Our private little joke. Even the boys wouldn't have remembered." THE MORNING THAT it happened was bright and blue in March, two months after Barty took Angel for a dry walk in wet weather, seven weeks after Celestina married Wally, and five weeks after the happy newlyweds completed their purchase of the Galloway house next door to the Lampion place. Selma Galloway, retired from a professorship years earlier, had subsequently retired further, taking advantage of the equity in her long-owned home to buy a little condo on the beach in nearby Carlsbad..Sliding Victoria's chair away from the table, he turned her to face him. He adjusted her body so that her head was tipped back and her arms were hanging slack at her sides..On Thursday, January 4, he used his John Pinchbeck identity to purchase a new Ford van with a cashier's check. He leased a private garage space in the Pinchbeck name, near the Presidio, and stored the van there..During the following day, January 6, as Phimie was wheeled around the hospital for tests in various departments, Celestina remained in 724, working on her portfolio for a class in advanced portraiture. She was a Junior at the Academy of Art College..Nothing in his reading offered a satisfactory explanation for what had been happening to him. None of the women filled the hole in his heart, and all of the Bartholomews were harmless. Only the needlepoint offered any satisfaction, but though Junior was proud of his craftsmanship, he knew that a grown man couldn't find fulfillment in stitchery alone..Foreword.. Jabbing his forefinger at each of the remaining treats, Barty said, "Pie, pie."..Now Barty peered at the card, smacked his lips, smiled, and said, "Ga." With a flatulent squawk of the butt trumpet, he soiled his diaper.. "No, no, dear. It was little Muffin, from next door. A big dog certainly would have torn up both you and the pants. We've got to have a credible story.".. "From childhood, I've had this ... awareness, this perception of an infinitely more complex reality than what my five basic senses reveal. A psychic claims to predict the future. I'm not a psychic. Whatever I am ... I'm able to feel a lot of the other possibilities inherent in any situation, to know they exist simultaneously with my reality, side by side, each world as real as mine. In my bones, in my blood-"..She heard the door, and when she opened her eyes, the bay had already slid out of the car, into the downpour again. She called him back, but he kept going.. "Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling.".. Junior's attorney-Simon Magusson--insisted upon full disclosure of maintenance records and advisories relating to the fire tower and to other forest-service structures for which the state and the county had sole or joint custodial responsibility. If a wrongful--death suit was filed, this information would have to be divulged anyway during normal disclosure procedures prior to trial, and since maintenance logs and advisories were of public record, Hisscus and Knacker and Nork agreed to provide what was requested..Clinging to the desperate hope of an ultimate reunion, he put the gun away, went to the kitchen, and made a grilled-cheese sandwich: cheddar, with dill pickles on the side..He left the party and stood in the street for a while, taking slow deep breaths, letting the brisk night air clean the pot smoke out of his lungs, slow deep breaths, suddenly sober in spite of the beer he'd drunk, slow deep breaths, as chilled as a slab of beef in a meat locker, but not because of the cold night..When Agnes had asked him to deliver the pies, before she had set out with Joey for the hospital the previous day, Edom had wanted to beg off, but he had agreed without hesitation. He was prepared to suffer every viciousness that nature could throw at him in this life, but he could not endure seeing disappointment in his sister's eyes..Tom had acted with the best intentions--but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..Alarm contacts gleamed in the header, but the system wasn't currently activated..Clenching his right hand around the quarter, waving left hand over right, he intoned, "Jingle-jangle, mingle-jingle." Opening his right hand, he revealed that the coin had vanished..The moment he had seen the building in which Nolly maintained an office--an aged three-story brick structure in the North Beach district, a seedy strip club occupying the ground floor--Junior knew he'd found the breed of snoop he needed. The detective was at the top of six flights of narrow stairs--no elevator--at the end of a dreary hallway with worn linoleum and with walls mottled by stains of an origin best left unconsidered. The air smelled of cheap disinfectant, stale cigarette smoke, stale beer, and dead hopes..The rain-washed street shimmered greasily under the tires, and the intersection lay halfway up a long hill, so gravity was aligned with fate against them. The driver's side of the Pontiac lifted. Beyond the windshield, the main drag of Bright Beach tilted crazily. The passenger's side slammed against the pavement.
