

ESTHETICS IN COLLEGIATE EDUCATION

163. He was holding the door three quarters shut, and so I couldn't see anything in the room but an expensive-looking color TV. He glanced over his shoulder nervously at something behind him. The inner ends of his eyebrows drooped in a frown. He looked back at me and started to say something, then, with a small defiance, shrugged his eyebrows. "Sure, but there's not much I can tell you." I got back to my apartment on Beachwood fairly late Sunday night and barely had time to get something to eat at the Mexican restaurant around the corner on Melrose. They have marvelous carne asada. While she was stuffing Nakamura into his suit, Crawford arrived. He had walked over the folds of plastic until he reached the dormitory, then sliced through it with his laser normally used to vaporize rock samples.. And in return from the bubbles they heard, "Who are you?" "But it could be done, right? With the proper shielding so the plants won't be wiped out before they ever sprout, we could have a hydroponics plant functioning?" He didn't want to think about it now; he didn't want to think of anything. Not Nina, not Darlene, not even Robbie. Darlene would be all right, Robbie was fine, and Nina was gone. That left him, alone here with the drums. Damned pounding. Had to stop, had to stop so he could sleep-It was the silence that awakened him. He sat up with a start, realizing he must have slept for hours, because the shadows outside the window were dappled with the grayish pink of dawn.. with the rest of the world.. Science fiction is a small country which for years has maintained a protective standards-tariff to encourage native manufactures. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in *The Issue at Hand*. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. And so on.. "Can't they wait? we're better off than most of the colonists of the past, at least for the short term. We have a large supply of everything a colony needs: food, water, tools, raw materials, energy, brains, and women. Without these things, no colony has much of a chance. All we lack is a regular resupply from the home country, but a really good group of colonists can get along without that. What do you say?
