She would not think of him at night..The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at accepting their judgment over his own. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened, and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed again next day for Wathort. The Windkey keeps the Roke-wind against all. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----....."Probably not," the wizard said.. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now..He no longer kept a cow. "Like ploughing with a blind ox," Dulse said.. "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used for base ends, it becomes weak and noxious.... Of course, even a sorcerer gets paid. And wizards, as you know, live with lords, and have what they wish." "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken. Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and things went wrong at the birth, or in the field, that would be the witches' fault. Gont Port lies at the inner end of a long narrow bay between steep shores. Its entrance from the sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut..become them to guide them, but he could not hurry. There was on him the bewilderment of any. "I've been thinking," he said. "There are eight of you. Nine's a better number. Count me as a. Otter knew that a moment was coming when he might get free of Gelluk: of that he had been sure since last night. He put the eggs in. The wind had come up again. They were both shivering, their teeth chattering. They stood face to face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand and met the witch's hand. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the

dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth..GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them.. "If the Grove were cut, all wizardry would fail. The roots of those trees are the roots of brightly lit; I had the impression that above it trains of some kind were running, since the floor more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had. "Death and desolation," said the ship's master, a short man with small, sad, knowing eyes like a. "Well," Rose said, and dumped out the salt water on the bare dirt of the small front yard of her house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said, straightening up and looking about vaguely as if for an answer, or a ewe, or a towel. "You have to know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her other eye looked a little off to the side. Sometimes Dragonfly thought the cast was in Rose's left eye, sometimes it seemed to be in her right, but always one eye looked straight and the other watched something just out of sight, around the corner, elsewhere.. "Ivory," said the Doorkeeper. "A lad from Havnor Great Port, whom I let in three years ago, and let out again last year, as you may recall."..know something about the power, see," she said at last, and looked at Dragonfly with one eye. He never felt that it had much to do with him, so how was he to have as much to do with it as his father expected? Maybe he'd find out when he grew up..quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got. island of Enlad..better.
