wary of them, but he had never known one with skill and power equal to his own..fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing. My teacher was with me, and his teacher with him," Ogion said when they praised him. "I could hold. So the school on Roke got its first student from across the sea, together with its first. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have. fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer. So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese, greens, fruit, smoked mutton - and went with him every afternoon into the grove of high trees, where the paths seemed never to be quite where she remembered them, and often led on far beyond what seemed the confines of the wood. They walked there in silence, and spoke seldom when they rested. The mage was a quiet man. Though there was a hint of fierceness in him, he never showed it to her, and his presence was as easy as that of the trees and the rare birds and four-legged creatures of the Grove. As he had said, he did not try to teach her. When she asked about the Grove, he told her that, with Roke Knoll, it had stood since Segoy made the islands of the world, and that all magic was in the roots of the trees, and that they were mingled with the roots of all the forests that were or might yet be. "And sometimes the Grove is in this place," he said, "and sometimes in another. But it is always." Grass growing out of gravelly dirt; the seamless earth..his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams. something Dulse could teach him: what went deeper than mastery. What he had learned here, on Gont..So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..Tinaral's vision, mystic silvery runes on high branching columns. It was only the earth, only. So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of peddlers working their way from one islet to the next among the mazy channels. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. Their popularity ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. smelled like, and thanked her. Gelluk watched him with his inquisitive, affectionate look, and when Otter stood up, wincing and His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices. naming truly, is a great power. To know the true name is to have power, as you know, mistress. And Women who work magic may practice periods of celibacy as well as fasting and other disciplines believed to purify and concentrate power; but most witches lead active sexual lives, having more freedom than most village women and less need to fear abuse. Many pledge "witch-troth" with another witch or an ordinary woman. They do not often marry men, and if they do, they are likely to choose a sorcerer. Most people of the Archipelago have brown or red-brown skin, black straight hair, and dark eyes; the predominant body type is short, slender, small-boned, but fairly muscular and well-fleshed. In the East and South Reaches people tend to be taller, heavier boned, and darker. Many Southerners have very dark brown skin. Most Archipelagan men have little or no facial hair. The original loose, roughly descriptive use of the words witch, sorcerer, wizard, was codified into a strict hierarchy by Halkel. Under his rules: "All the foreigners in one basket," said the taverner, and this was repeated that night at the tavern several dozen times, an inexhaustible source of admiration, the best thing anybody'd said since the murrain.
