That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. Great House, they say, he turned the Long Table of the dining hall. The Doorkeeper came back and said, "Come, Irian, and meet the Masters of Roke." Her heart began to go at a carthorse gallop. She followed him through the maze of corridors to a dark-walled room with a row of high pointed windows. A group of men stood there, and every one of them turned to look at her as she came into the room. Although Otter had not thought the words, Anieb spoke with his voice, the same weak, dull voice: control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale. But as he went back up the streets of South Port he lost her. He swore to keep her with him, to. For there had been times when he felt that, as he had summoned her living, so dead she might summon him. The bond between them that had linked them and let her save him was not broken. He was not used to failures and did not like them. He did not like what Hound told him about this boy, Otter, and he remembered it.. "I'm tired of teaching and talking," he said. "I need silence. Is that enough for you?" They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets. Mild sunlight and long shadows streaked the hillsides.. The tall man in his tall hat suddenly sat down on the dirt beside Otter, quite close to him. His breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Tures. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!"
