

## USING GNU FORTRAN FOR GCC 61

He repressed the scream, however, because he sensed that if he gave voice to it, he wouldn't be able to silence himself for a long long time..Clearly touched and intrigued, the magician nevertheless circled the offer in search of reasons to decline, before at last shaking his head sadly. "I doubt that I'm the caliber of person you're looking for, Mrs. Lampion. I wouldn't be entirely a credit to your project." Now, trouble. Different from what he'd experienced before but just as powerful and terrifying. He didn't need to regurgitate, but he desperately needed to evacuate..Certain disbelief insulated her against immediate surprise. She shook her head. "That's not possible." When all were gathered on the porch, lined up across the head of the steps and along the railing, in chill damp air that smelled faintly of ozone and less faintly of jasmine, Barty said, "Mr. Vanadium, your quarter trick is really cool. But here's something out of Heinlein." Perhaps the paramedic had given him an injection, a sedative. the howling ambulance rocked along on this most momentous day, Junior Cain wept profoundly but quietly--and achieved temporary peace in a dreamless sleep.."Will I love you tomorrow, you mean, and the day after tomorrow, and on forever? Of course, forever, Wally, always." He was Father Tom again, having recommitted to his vows three years previous. At his request, the Church had assigned him as the chaplain of Pie Lady Services..Focus. Get Ichabod all the way inside. Act now, think later. No, no, proper focus requires an understanding of the need to ize: scrutinize, analyze, and prioritize. Get the bitch, get the bitch! Slow deep breaths. Channel the beautiful rage. A fully evolved man is self-controlled and calm. Move, move, move! "We don't believe it does, do we, Daddy? We don't believe blood tells. We believe we're born to hope, under a mantle of mercy, don't we?". Prepared for any contingency, Junior listened to the house until he was certain that he needed the knife for no one else..Adding new growth to his forest of frustration, Tom got up from the study desk, fetched the newspaper from the front doorstep, and went to the kitchen to make his morning coffee. He boiled up a pot of strong brew and sat down at the knotty-pine table with a steaming mug full of black and sugarless solace.."Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." IN HOSPITALS, AS in farmhouses, breakfast comes soon after dawn, because both healing and growing are hard work, and long days of labor required to save the human species, which spends as mu& time earning its pain and hunger as it does trying to escape them..Somehow, Agnes knew that in his younger days, Obadiah had been a stage magician. Artlessly, she drew him out on the subject..A smoldering cigarette, usually dangling aslant from one corner of a hard mouth set in a cynical sneer, was standard issue for tough-guy gumshoes, but Nolly didn't smoke. His failure to develop this bad habit resulted in a less satisfyingly murky atmosphere than the clients of a private dick might expect.."That's enough?" "Silly man." "Cain looks like a movie star." "Does he have nice teeth?" she asked. "They're good. Not perfect." "So kiss me, Mr. Perfect." "Look at it this way, Aggie. All the pies, all the things you do--that's betting on life. And now you've just been given the great blessing of being able to place larger bets." nonetheless. The rapist's curse. Healthy, but healthy at the expense of Phimie..Usually, he remained still, tense, listening, until enough silence convinced him that the sounds he'd heard had been in the dream, not in the real world. If silence didn't settle him, he went into the living room, only to discover that she was always where he had left her, fork-and-fan-blade face wrenched in a soundless scream..Inevitably, man of the arts that he was, his slouching brought him to several galleries. In the window of the fourth, not one of his favorite establishments, he saw an eight-by-ten photograph of Seraphim White..This wasn't the same Enoch Cain whom Vanadium had known three years ago in Spruce Hills. That man had been utterly ruthless but not a wild, raging animal, coldly determined but never obsessive. That Cain had been too calculating and too self-controlled to have been swept into the emotional frenzy required to produce this blood graffiti and to act out the symbolic mutilation of Bartholomew with a knife..With everyone in the diner now aware of Junior, with every head turned toward him and with every wary eye tracking him, he dropped the bun cap and the mustard dispenser on the floor. Barging through the swinging gate at the end of the lunch counter, he entered the narrow work area behind it..At the far end of the table, Agnes shot up from her chair as her son said rain, and as he said wet, she spoke warningly: "Barty!".Mechanics have reliably steady hands, yet Jacob's hands shook as he discarded two cards and slowly turned over the ninth draw..Yet when he put her down in the upstairs hall, she cried out for her husband--"Harry!" "-and tried to plunge once more into the narrow stairwell..Agnes had read the last half of Red Planet to Barty just the previous night, but he brought the book with him, to read it again..She had lighted one candle for each of eleven apostles, none for the twelfth, Judas, the betrayer. Consequently, after burning a fragment of the cards in each votive glass, she was left with one piece..In August, he developed an interest in meditation. He began with concentrative meditation--the form called meditation "with seed"--in which you must close your eyes, mentally focus on a visualized object, and clear your mind of all else..Wally and Celestina went to dinner at the Armenian restaurant from which he'd gotten takeout on the day in '65 that he rescued her and Angel from Neddy Gnathic. Red tablecloths, white dishes, dark wood paneling, a cluster of candles in red glasses on each table, air redolent of garlic and roasted peppers and cubeb and sizzling soujouk-plus a personable staff, largely of the owners' family--created an atmosphere as right for celebration as for intimate conversation, and Celestina expected to enjoy both, because this promised to be a most momentous day in more ways than one..do further testing, of course, but not until he's been stabilized at least twelve hours. Personally, I don't think we'll find any physical cause. Most likely, this was psychological--acute nervous emesis, caused by severe anxiety, the shock of losing his wife, seeing her die.' In spite of the urgency of his desire, he followed a circuitous route to Victorial's, doubling back on himself twice, watching for surveillance as he drove. If he were being followed, his tail was an invisible man in a ghost car..Walking rather

than riding was now nothing more than a matter of habit. And by walking, he could delay his arrival at a house that had grown strange to him, a house in which every noise he made, since Monday, seemed to echo as if through vast caverns..Waking from a bad dream, he sometimes thought he heard the ratcheting of gear-wheel feet. The scrape and creak of rusted iron joints. The clink of rake-tine fingers rattling against one another..She hadn't sung since the early-morning hours of October 18, and no other paranormal event had occurred since then. The waiting between manifestations scraped at Junior's nerves worse than the manifestations themselves..She nodded. And could not lift her gaze from her hands. Could not meet his eyes, afraid that his worry would feed her own, afraid also that the sight of his sympathy would shake loose her perilous grip on her emotions..Celestina, Grace, even Tom himself, had taken extraordinary measures to leave no slightest trail. Those very few authorities who knew how to reach Tom and, through him, the others, were acutely aware that his whereabouts and phone number must be tightly guarded.. "Don't worry, love. I'll make sure the snap's are constructed so you can get it off me easily enough." In the Suburban with Wally and Grace, as they waited to hit the trail, Celestina said, "He took her to a movie again, Tuesday night." She kissed his cheek, and he pulled his arms out from under the covers to hug her. Such small arms, but such a fierce hug..Barty never cried. In the hospital neonatal unit, he'd been a marvel to the nurses, because when the other newborns were squalling in chorus, Barty had been unfailingly serene..The nurse was in was gone, but Maria remained in attendance. She the vinyl-and-stainless-steel armchair, busy at..After a while, a voice broke the vacuum-perfect silence. Bob Chicane. His instructor..When she complimented him on being such a good little soldier, abiding his cold with no complaint, he shrugged. Without looking up from the coloring book, he said, "It's just here." There was a valuable lesson to be learned from the encounter with Renee Vivi: Many things in this life are not what they first appear to be. To Junior, however, the lesson was not worth learning if he had to live with the vivid memory of his humiliation..Through her efforts, the Bright Beach Public Library sponsored an ambitious oral-history project financed by two private foundations and by an annual strawberry festival. Local retirees were enlisted to record the stories of their lives, so that their experiences, insights, and knowledge wouldn't be lost to generations yet unborn.."You're the one who said your cold's just here. Maybe it stays in the kitchen, hoping it'll get a piece of pie." Perri was often fast asleep by nine-thirty, seldom later than ten o'clock while Paul never turned in earlier than midnight or one in the morning. In the later hours, to the reassuring susurration of his wife's breathing, he returned to his pulp adventures..In spite of the ravages of illness and age, beauty remained in the old woman's face. Her bone structure was superb. In youth, she must have been stunning..Mrs. Cain's little boy felt small, weak, sorry for himself, and terribly alone. The detective was still here, but his presence only aggravated Junior's sense of isolation.."Why? What was he going to get out of it?" "That was five years ago. After more surgeries than I care to remember, I was left with these." He raised his goblin hands again. "There's pain in humid weather, less when it's dry. I can take care of myself, but I'll never be a card mechanic again ... or a magician." A mere silhouette against the fluorescent glare, Vanadium stepped it the hall. The bright light seemed to enfold him. The detective shimmered and vanished the way that a mirage of a man, on a fiercely hot desert highway, will appear to walk out of this dimension into another, slipping between the tremulous curtains of heat as though they hang between realities.."Two weeks to go. I'm not going to miss that. I've cleared all appointments off my calendar." Of all the kindnesses that we can do for one another, the most precious of all gifts-time-is not ours to give. Bearing this in mind, Agnes did her best to guide her extended family through its grieving for Harrison and for Jacob, into happier days. Respect must be paid, precious memories nurtured, but life also must go on..She was a duplicitous bitch, too. After coming on to him, after teasing a reaction out of him, she had run off and gossiped about him as though he had instigated the seduction. Worse, to make herself feel important, she had told the police her skewed version, surely with much colorful embellishment..Laying the gun on the newspaper, he dropped into the chair. He picked up his coffee. The search of the house had been conducted with such urgency that the java was still pleasantly hot..Soon he dispensed with picture books and progressed to short novels for more accomplished readers, and then rapidly to books meant for young adults. Tom Swift adventures and Nancy Drew mysteries captivated him through the summer and early autumn..folded over his too-tight shirt collar, and with a second chin more prominent than."When you cut Naomi's string, you put an end to the effects that I her music would have on the lives of others and on the shape of the future. YOU struck a discord that can be heard, however faintly, all the way to the farthest end of the universe." Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics..Junior could neither speak nor even mewl in agony. All the saliva had been draining forward, out of his open mouth, for so long that his throat was parched and raw. He felt as though he had munched on a snack of salted razor blades that were now stuck in his pharynx. His rattling wheeze sounded like scuttling scarabs..The subtle distortions in his vision, which caused lines of type to twist, didn't appear to trouble Barty much otherwise. He moved as quickly and as surely as ever, with his special grace..A trickster, this detective. Full of taunts and feints and sly stratagems. Psychological-warfare artist..The full nature of the nightmare continued to elude him, but he became convinced that good reason for his fear existed, that the dream had been more than a dream. He had a nemesis named Bartholomew not merely in dreams, but in the real world, and this Bartholomew had something to do with ... babies..Although Thomas Vanadium was unconscious, perhaps even dead, and though both nailhead-gray eyes were closed, Junior knew those eyes were watching him, watching through the lids..At many houses, strings of Christmas lights painted patterns of color at the eaves, around the window frames, and along the porch railings-all so blurred by fog that Junior seemed to be moving through a dreamscape with Japanese lanterns..Celestina White was the center of attention, always surrounded by champagne-swilling,

canape--gobbling bourgeoisie who would have been shopping for paintings on velvet if they'd had less money..Maria looked stricken when she answered the doorbell, for she intuited that a visit, instead of a call, meant the worst..Turning in Celestina's lap, Angel said, "Smell," and held the index finger of her right hand under her mother's nose.."It was in your heart, too, and anything that's in your heart is there for anyone to see. Will your father marry us?" .She got out of the cab and stood on the sidewalk in front of the gallery, her legs as shaky as those of a newborn colt..This was not a ghost. This was not a walking dead man. This was something else, but until he knew what it was, who it was, the only person he could possibly look for was Vanadium..Although the piano was at some distance and the restaurant was a little noisy, Kathleen recognized the tune at once. She looked up from her veal, her eyes full of merriment..Junior locked the door. He started the engine and drove out of the cemetery faster than was prudent on the winding service road..Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?" .He possessed vast files on tragic fires, and most of them were committed to memory. In Vienna's magnificent Ring Theater, December 8, a blaze claimed 850 lives. On May 25, 1887, 200 dead at the Opera Comique, Paris. November 28, 1942, in the Coconut Grove nightclub in Boston-when Jacob was only fourteen years old and already..In those days they had no fixed names for the various kinds and arts of magic, nor were the connections among those arts clear. There was-as the wise men of Roke would say later-no science in what they knew. But Hound knew pretty surely that his prisoner was concealing his talents..Junior got in the car once more, slammed the door, and said, "Panfaced, double-chinned, half-bald, puke-collecting creep." .In her features, the girl entirely resembled her mother. She was nothing whatsoever like Junior. Only the light brown shade of her skin provided evidence that she hadn't been derived from Seraphim by parthenogenesis..Through tears, that night, she asked him if the commitment he was making didn't frighten him..Over generous slices of Black Forest cake and coffee, Jacob at first held forth on the explosion of a French freighter, carrying a cargo of ammonium nitrate, at a pier in Texas City, Texas, back in 1947. Five hundred and seventy-six had perished..With the stocky detective looming, Junior wasn't able to stroke his imagination into an erotic mood. In his mind's eye, Victoria's ample bosom remained concealed behind a starched white uniform..Edom felt uneasy in this kingdom of a strange god. The god that his brother feared was humanity, its dark compulsions, its arrogance. Edom, on the other hand, trembled before Nature, whose wrath was so great that one day she would destroy all things, when the universe collapsed into a super dense nugget of matter the size of a pea..Intuition told Tom Vanadium that the removal of the paintings was significant, but he wasn't a talented enough Sherlock to leap immediately to the meaning of their absence..The 9-mm pistol rested in the complementary shoulder holster, under Junior's leather coat. But the sound-suppressor hadn't been attached; it was in one of his coat pockets. The extended barrel, too long to lay comfortably against his left side, would most likely have hung up on the holster when drawn..An overflow crowd of mourners had attended the services at St. Thomas's Church, standing shoulder to shoulder at the back of the nave, through the narthex, and across the sidewalk outside, and now everyone appeared to have come to the cemetery, as well..Smiling again, speaking in a voice hardly louder than a whisper, he said, "Got a wedding date to keep." .Trying to ignore his phantom toe, which itched furiously, he searched the apartment. He proceeded carefully, determined not to shoot himself in the foot accidentally this time..As kids-living in a house that was run like a prison, stifled by the oppressive rule of a morose father who believed that any form of entertainment was an offense against God-they conducted secret card games as their primary act of rebellion. A deck of cards was small enough to hide quickly and to keep hidden successfully even during one of their father's painstakingly thorough room searches..cocktail lounge to be her personal pickup spot. Naturally, people who worked the lounge knew her, were friendly with her. They would remember any man who accompanied the heiress to her penthouse.."No, the monster lives in there," Barty said, which was a joke, because he'd never suffered night frights of that-or any--sort.."Was a priest," he corrected. "Might be again. At my request, I've been under a dispensation from vows and suspension from duties for twenty-seven years. Ever since those kids were killed." .She looked around the room. "He's invisible like the Cheshire cat?" "His whole world is as real as ours, but we can't see it, and people in his world can't see us. There're millions and millions of worlds all here in the same place and invisible to one another, where we keep getting chance after chance to live a good life and do the right thing." .In a state of wonderment that was laced with dread rather than delight, he looked up from the quarter, seeking an explanation from Vanadium, expecting to see that anaconda smile..She kicked off her shoes and sat beside him in bed, with her back against the headboard, still holding his hand. Even though this darkness wasn't as deep as Barty's, Agnes found that she was better able to control her emotions when she couldn't see him. "I think you must be sad, kiddo. You hide it well, but you must be." .In the morning, after Agnes showered and dressed, when she went downstairs, she discovered Barty already at the kitchen table, eating a bowl of cereal while riveted to the book. Finished with breakfast, he returned to his room, reading as he went..He hurried the length of the diner, pushing past waitresses, checking out all three of the possibilities, but of course, none of them was the dead detective--or anyone else Junior had ever seen before. He was looking for--what?--a ghost, but vengeful ghosts didn't sit down to a meat-loaf lunch in the middle of a hauntin.."That would be John George Haigh," Agnes said, checking Barty's diaper before nestling him tenderly in the crook of her arm.."Nicholas Deed." On her tongue, the name was as bitter as a dissolving aspirin.."For the love of God," Junior pleaded, "can't you please give me something for the pain?" ."Lock it anyway. And don't hang up. Stay on the line until the patrolmen get there." .Maybe his pursuit of the matter sprang from mere curiosity, the desire to discover what a child of his might look like; however, if something else lay behind his interest, the motivation would not be benign. Whatever Cain's intentions, he would prove to be at least an annoyance to Celestina and the little girl-and possibly a danger..Under a sullen afternoon sky, in the winter-drab hills, the

yellow-and-white station wagon was a bright arrow, drawn and fired not from a hunter's quiver but from that of a Samaritan..Surprisingly, he received a lot of gratification from voicing this insult, even though Vanadium was too dead to hear it..During the past ten days, he'd proved that he was clever, bold, with exceptional inner resources. He needed to tap his deep well of strength and resolve now, more than ever. He'd been through far too much, accomplished too much, to be brought down by mere biology..Third, Celestina had a daughter. Not a boy named Bartholomew. Seraphim's baby had been a girl. Named Angel. This confused Junior as much as it stunned him..A supply of ammunition lined the bottom of all the dresser and bureau drawers, concealed by underwear and other garments. Junior appropriated a box of 9-mm. cartridges..He sat on the edge of the bed and held her right hand. She had passed away such a short time ago that her skin was still warm..the floor, on a silk-covered pillow filled with goose down. With a sigh " he assumed the lotus position: spine straight, legs crossed, hands at rest with the palms up..It was the best he could do in protest against the misuse of good work and a good ship. He was pleased with himself. When the ship was launched (and all seemed well with her, for her fault would not show up until she was out on the open sea) he could not keep from his teachers what he had done, the little circle of old men and midwives, the young hunchback who could speak with the dead, the blind girl who knew the names of things. He told them his trick, and the blind girl laughed, but the old people said, "Look out. Take care. Keep hidden." Tom removed the lid. No beer, one head. Simon Magusson's severed head lay faceup on the ice, mouth open as though he were standing in court to object to the prosecution's line of questioning..Anyway, the thing that scared her was not the monstrous father of this child. The fearsome thing was the decision that she had made a few minutes ago, in the unused hospital room on the seventh floor..Knacker, Hisscus, and Nork, all talking at once, then failing silent as if they were a single organism, then talking in rotation but interrupting one another, tried to advance their agenda..To the waiter, Nolly was Nolly, Kathleen was Mrs. Wulfstan, and Tom Vanadium was sir--though not the usual perfunctorily polite sir, but sir with deferential emphasis. Tom was unknown to the waiter, but his shattered face gave him gravitas; besides, he possessed a quality, quite separate from carriage and demeanor and attitude, an ineffable something, that inspired respect and even trust..This declaration was received seriously by Edom and Jacob, as if the devil often strolled the streets of Bright Beach and from time had been known to snatch little babies from their mothers' and eat them with mustard..Outside, he discovered that some worthless criminal wretch had broken into his Suburban during the night. The suitcase and Book-of-the-Month selections were gone. The creep even swiped the Kleenex, the chewing gum, and the breath mints from the glove, compartment..Vanadium couldn't know the whereabouts of the quarter. Besides, even when he'd swung the lunch tray over Junior's lap, the detective hadn't been close enough to pick the pocket of the robe..In the closet, a limited wardrobe did not fully occupy available rod space. On the floor, shoes were neatly arranged toe-to-heel..Now, here on this sunny ridge in Oregon, miles from any train and farther still from any nuns, Junior applied this artistic insight to his own situation, overcame his squeamishness, and regained some momentum of his own. He approached his fallen wife, stood over her, and stared down into her fixed eyes as he said, "Naomi'." "Possible complications include cerebral hemorrhage, pulmonary edema, kidney failure, necrosis of the liver, coma-to name a few." "When he dared to look in the mirror above the sink, he expected to see a haggard face, sunken eyes, but the grim experience had left no visible mark. He quickly combed his hair. Indeed, he looked so fine that women would as usual caress him with their yearning gazes when he made his way back through the gallery..Elsewhere in the cemetery, about 150 yards away, another interment service-with a much larger group of mourners-had begun prior to this one for Naomi. Now it was over, and the people were dispersing to their cars.."No, no. But being around him so much, inevitably I absorb some details. He's a compelling speaker when the subject interests him." "Her strength was the strength of stones only in the sense that she felt as immovable as rock, yet she found the resources to raise one arm, to place her left hand over Maria's bead-tangled fingers. "But the baby's dead." "Such behavior as hers was unlikely to lead to self-discovery, self improvement, and fulfillment. We make our own misery in this life. For better or worse, we create our own futures.
